The United Arab Emirates

Power, Politics and Policy-Making

Kristian Coates Ulrichsen, Rice University, USA

Series: The Contemporary Middle East

This book charts the various processes of state formation and political and economic development that have enabled the UAE to emerge as a great regional power and major player in the post Arab Spring reordering of Middle East and North African Politics, as well as the closest partner of the US in military and security affairs in the region. It also explores the seamier underside of that growth in terms of the condition of migrant workers, organized criminal networks, and, latterly, one of the highest rates of political prisoners per capita in the world. It concludes with a discussion of the likely policy challenges that the UAE will face in coming years.
